

Swing Hoists and Trash Chutes

300 lb. Hand Hoist

- Sets up and dismantles in minutes with no tools
- Full Clearance for Parapet walls and Rooftop obstructions
- 300 lb lifting capacity

Quickly lift lightweight mechanical equipment, tools, materials and other objects to rooftop worksites. Easily supports loads up to 300 Lbs. when used with the optional counterweight system..

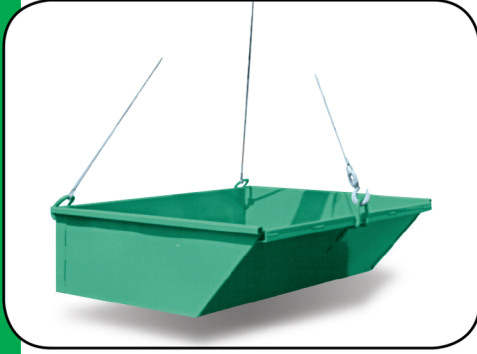

400 lb. Hand Hoist

- Lift loads directly onto virtually any rooftop
- Increased control over rooftop loads
- Clears most parapet walls with high beam design
- Left or right swing, 400 lb capacity

Quickly lift loads of up to 400 lbs. with the sturdy swing beam that locks into position for lifting, then swings left or right to place then load directly on the roof. The swing hoist increases load control vs. rigid hoists.

HOISTING AND DEBRIS REMOVAL: OPTIONS

TRASH TRAY

Perfect for off-loading debris or ballast.
14.5 cu ft. / 800 lb. capacity.

TRASH CHUTE

Sectional design. Add as you go for easy setup. Lightweight polyethelene construction extremely durable.

TRASH CHUTE HOPPER

Rugged design built to withstand daily use. Perimeter stake pockets allow addition of sides.

TRASH CHUTE SUPPORT AND WINCH SYSTEM

- **Maintain a clean and professional image**
- **Protect the building owners property**
- **Decrease roof debris removal time**

Clean up rooftop work sites quickly and economically and increase profitability with the Garlock Trash Chute System. The reusable chute sections store flat, set up in minutes and can be joined and hoisted on site to form a chute of virtually any length. Roof tear off trash and debris can be directed into a dumpster for easy removal, and improve the stability and ease of use with the Garlock Trash Chute Hopper.
