G12 Generator

Wherever, whenever, Garlock G12 Generator was designed with flexibility and durability in mind. The G12 generators range from 0 - 12,000 watts of industrial power-continuous 10,500 watts. With adjustable handles and 4 lift points doubling as overhead fork pockets, this generator can adapt to any situation to get the job done.

Features and Benefits:

- Industry proven engine and gen head
- Robust frame made for trades
- Handles fold in for easy transportation and storage
- Mountable on Little Giant Trailer or Fall Cart
- Outlet switch limits potential overdraw issue(s)
- Tip and go design is balance for easy rolling when lifted and automatically breaking when set down
- 4 lift points double as overhead fork pockets for easier ground to rooftop transitions
- Wheel kits can be mounted inside or outside frame to pass through doorways
- 32 Amp breakers in the G12, competition uses 30 Amp.
- Sound panel and wheel kit optional
- Optional sound panel produces a 10 decibel reduced quiet zone
